Case Study

CliftonPhotographicCompany

Customer:	Clifton Photographic Company
Retailer:	The Shires Shopping Centre
Location:	Trowbridge
Industry:	Photography

“...Access Point were serious about what they do and were very professional.”

Introduction.

Clifton Photographic Company is based in Bristol and Bath. They specialise in makeovers and family portraits.

What previous methods of advertising have you used in the past?

I've used Facebook ads to advertise my business previously. I decided to promote at The Shires because I wanted to spread awareness of my business to the local area.

How did you find the application process?

The application process was very easy. It was great to know that I had additional support from Claire too.

Did this promotion have a positive impact on your business?

I feel that the promotion had a positive impact. I was able to generate a number of sales and leads from the promotion.

“Access Point was a pleasure to work with. They were serious about what they do and they were very professional.”
